

Master currency trading to leverage both sides of the coin.

With ICFL's **Gateway to Currency Trading**
eLEARN programme.

Gateway to Currency Trading

Currency trading is the largest financial market globally, followed by commodities and equities. Depending on their needs whether they are investors, speculators, individuals or corporates, all are involved in cross-border currency trading.

This programme is designed to provide an understanding of the fundamental concepts of currency trading in India and the world over. It explains step-by-step techniques to trade in currencies effectively and lays a strong foundation of the pre-requisites of currency trading, which is necessary to succeed as a trader.

Objective: Gateway to Currency Trading aims to enhance the knowledge of the participants on the currency markets, its dynamics and its importance in the overall economy. It also equips the participants with tools and techniques, along with the required understanding to help them take advantage of the currency movements; be it for hedging, trading or for enhancing their overall learning.

Ideal for:

- Day traders, positional traders
- Corporate and treasury professionals
- Research analysts
- Students, finance professionals
- Anyone who is interested in learning about the currency markets

Programme Benefits

Post-completion of this programme, the participants will be able to:

- Gain understanding of the currency markets
- Gain knowledge about technical analysis and derivatives
- Understand the need for hedging currency risks
- Recognise the benefits of Currency Futures

Benefits of trading in currency markets:

- **Hedging:** Protection against foreign exchange exposure in business and hedge potential losses by taking appropriate positions in the same
- **Speculation:** Speculate on the short-term movement of the markets by using Currency Futures
- **Arbitrage:** Helps in making profits by taking advantage of the exchange rates of the currency in different markets and different exchanges
- **Leverage:** Trade in currency markets by just paying a percentage value called the margin amount instead of the full traded value

Programme Structure

The programme covers all the key ingredients required to understand and take advantage of the movements in the currency markets such as fundamentals along with technical aspects. It also educates the participants on currency trading instruments which are available on exchanges and how to profit from them.
